

# The facts about Launchpad18

- ✓ 18% IgG, minimum 18% fat and high protein – it's the most balanced colostrum powder on the market.
- ✓ It's unadulterated pure colostrum - ie it's first milking, frozen, transported, thawed and dried. There are no additives and it's not manipulated in any way.
- ✓ High quality - made from first milk Colostrum Gold.
- ✓ Can be used as sole colostrum source, or in combination with maternal colostrum.
- ✓ Available in 20kg, 1.8kg and 600g.

## Mixing and feeding rates

- ✓ **300g colostrum powder makes 1L liquid colostrum**
  - i.e. mix 700mL water with 300g colostrum powder to make up 1L liquid colostrum
- ✓ **A calf will require 600g Launchpad18 powder (providing 108g IgG)**
  - 20kg bag feeds 33 calves\*
  - 1.8kg pail feeds 3 calves\*
  - 600g pouch feeds 1 calf\*
- ✓ **A 4kg lamb/goat kid will require 60g Launchpad18 powder (receiving 10.8g IgG)**
  - 20kg bag feeds 333 lambs/goat kids\*
  - 1.8kg pail feeds 30 lambs/goat kids\*
  - 600g pouch feeds 10 lambs/goat kids\*

\*These numbers are approximate.
